How to Quickly customize PowerPoint Agenda Slide Template Designs Use a PowerPoint agenda template is the best way to customize your project presentation for 2020. Templates save time and effort by completing most design tasks for you. Now it's time to build your own agenda PPT by following just a few steps. To follow along with our mini tutorial, download Cubex - Multipurpose PowerPoint presentation from Envato Elements. Cubex contains an advanced feature set you can not find in any agenda PowerPoint template for free. Let's get started: 1. Select Your Agenda Slides A PowerPoint agenda slide master, such as Cubex, contains over 100 custom layouts. The easiest way to select your favorites is to go to the View tab and click Slide Sorter. Here you can view each slide at the same time. Hold down Shift and click to select unwanted slides, and then tap Delete. You can also click and drag to reorder your slides. When you're done, on the View tab, click Normal. Use slide sorter view to select the best slides from the agenda slide master. 2. Changing color features A great way to bring your PowerPoint agenda ideas to life is through creative use of colors. You can change the color of any slide item! For example, let's adjust this circle marked 2017. Start by clicking to select it. Then, on the Shape Format tab, click Shape Fill. You'll see a plethora of options, including theme colors specific to this template, along with basic palettes, gradients, image fills, and more. Click one to select it, and it applies automatically to the shape. Use the Shape Format > Shape Fill drop-down list to select gradients that complement the powerpoint agenda ideas. 3. Add custom Text Custom text is really the most important feature of any DPI template on the agenda. It's incredibly easy to add your own. Start by simply highlighting text you see on the slide. Then replace it by typing in your own words. Keep in mind that on the Home tab in the Font section, you can customize things like font style and color, add italic, bold text, and underscores. Repeat throughout the agenda presentation template for text you want to change. Select a new font size to highlight points in the PowerPoint agenda slide. 4. Illustrate with creative images This agenda slide master includes many pre-built image placeholders. They are the fastest way to imagine adding your own photos. It's just as easy and drag and drop. Browse to an image file on your computer. Then drop it over the placeholder. PowerPoint imports the image, scaled, and resized perfectly. Repeat as needed. Add creative images to your PowerPoint agenda slide to make them more interesting. 5. Remove additional content Slider as this proves the value of a premium agenda PPT. You won't find amazing charts like this in any agenda slide master free download! But suppose that with custom text already added, you'll find that you don't need all the extra details. There is a simple solution. Hold Shift on your keyboard, click on unwanted objects to multi-select them. Then tap Delete. It's a quick way to turn any slide into one that's cleaner and more focused. is more: remove content from a agenda slide master to create sharper focus on fewer points. 5 Quick PowerPoint PPT Agenda Slide Designs Tips for 2020 Here are five tips to help you when using the agenda template in DPI: 1. Keep it simple Do not load too much text on one slide. This can overwhelm the public. When you add objects, do not add too many. Having too many objects on one slide can distract the audience. If you have a wall of text, you can break up the wall with text with an image or infographic. Icons, images and infographics are great tools used to break up a wall of text. 2. Have a nice theme Premium PASSION Multipurpose PowerPoint Presentation template from Envato Elements has a nice background and is not too messy. When choosing a theme, don't choose one that overwhelms your slides. If your theme is too busy, you'll overwhelm or distract your audience from your main points. When you select the color scheme for the slide show, select colors that complement each other. If your color scheme collides, it can distract your audience from the information you're presenting. 3. Use charts You may have data to present. Having a lot of data on one slide can be difficult for the public to remember or even understand. Use charts and graphs to break up large pieces of data. Charts and graphs can also help your audience visualize the data you're presenting. 4. Select Appropriate Fonts Not note how the agenda slide layout from the premium template, Cubex - Multipurpose PowerPoint Presentation, keeps the fonts simple. When deciding how you want your presentation to look, be careful when choosing the font. Selecting a hard-to-read font can distract the audience in the slide on the agenda. Make sure your audience can read the slide master for the agenda. The font in the agenda slide should be large enough for the longest person away to still read it. 5. Limit animation It's okay to use a little animation, but don't overdo it. Having too much animation can be distracting for the audience. You want your audience to focus on the information you're presenting, not on the animation you're using. Learn more in our animation guide. You are sure to see PowerPoint agenda ideas for how to use animation. Multiple PowerPoint templates for top-presentation slides PowerPoint templates are key to fast design with professional output.
